

Zone Labs ZoneAlarm Pro

NEW! Version 4.5

Datasheet

Advanced Internet Security & Privacy Protection

When you are online, you are at risk. Unknown email attachments can unleash destructive, malicious code. Data thieves can steal your personal and financial information. Spy sites can track your Web-surfing habits—all without your knowledge. With so much to lose, and with new Internet threats appearing daily, you need the strongest possible safeguards.

Millions of users trust their computers to Zone Labs, Inc., makers of ZoneAlarm® Pro. The award-winning personal firewall provides home users and small-business owners with the highest levels of protection possible. ZoneAlarm Pro stops known and unknown Internet threats and provides important privacy features, such as cookie control and the ability to block annoying ads. With ZoneAlarm Pro, whenever you are connected, you are protected.

Only in ZoneAlarm Pro

ZoneAlarm® Pro offers all the protection of our popular ZoneAlarm®, the solution trusted by millions, plus these advanced features for even greater security and control:

- **Inbound and Outbound MailSafe** email protection provides ironclad email defense. MailSafe prevents incoming email-borne viruses from opening, and protects you from inadvertently sending out virus-infected email.
- **AlertAdvisorSM** service gives immediate advice about security events occurring on your PC.*
- **Hacker ID** anonymously tracks hackers and snoops who attack your PC. Reports serious offenders to their ISP.*

- **Cache Cleaner** makes your computer more efficient while guarding your privacy.
- **Pop-up Ad Control** eliminates annoying pop-up ads that take over your screen.
- **Wireless Network Protection** detects wireless networks for instant protection on the go.
- **Expert Firewall Rules** enables ultra-granular configuration of ports, protocols, applications, time of day, and more.
- **Password Protection** ensures that your customized security settings are tamper-resistant.
- **Automatic Network Detection** with a quick wizard that instantly senses new networks for trusted networking and file-sharing anywhere—a must for mobile professionals.
- **Automatic VPN Configuration** automatically detects and configures remote access via VPN connections and sets your endpoint security for maximum protection.
- **Increased Hacker-Proofing** further strengthens ZoneAlarm Pro from the newest and most dangerous hacker techniques that shut down other security products.
- **NEW! Program pre-configuration with MD5 verification** grants appropriate access rights to common programs, making set up quick and safe.
- **NEW! eBay site verification** safeguards users from inadvertently using imposter sites.
- **NEW! myVAULT** provides a safe and convenient place to store your sensitive financial and personal information, keeping it out of the hands of online stalkers and data thieves.

Zone Labs ZoneAlarm Pro

NEW! Version 4.5
Datasheet

- **NEW! ID Lock** ensures your personal information won't leave your PC through email or the Internet without your knowledge.
- **NEW! One-way encryption** ensures your data stays private, even if your computer is lost, stolen or compromised.

Lock Out Hacker Attacks

ZoneAlarm Pro barricades your computer, protecting your network, automatically blocking Internet threats such as hackers, data thieves, spyware and email-borne worms. New Hacker ID allows you to pinpoint the location of a would-be intruder and automatically report serious offenders to their ISP. Wherever you go, whether you are surfing the wireless Web at a corner café, working on an office LAN or accessing the Internet from home, you are protected with ZoneAlarm Pro.

Key Features

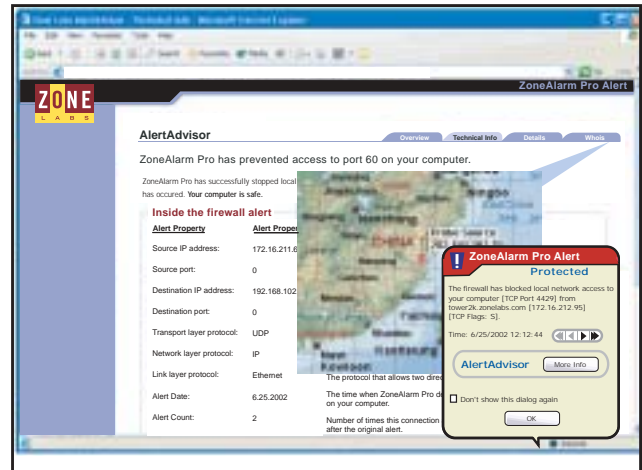

- Award-winning Personal Firewall
- Advanced Inbound and Outbound MailSafe
- AlertAdvisorSM Service*
- Hacker ID*
- Program Control
- Automatic Intrusion Blocking
- Stealth Mode
- Automatic Network Detection
- Automatic VPN Configuration
- Wireless Network Protection
- Secure Password Protection
- Advanced Zone Control
- Increased Hacker-Proofing

Prevent Data Theft and Fraud

The industry analyst firm Gartner, Inc. reported that seven million U.S. adults were victims of identity theft during the 12 months ending in June 2003, up 79% from the previous year. To help Internet users become more aware of identity theft, ZoneAlarm Pro 4.5 provides extra precautions to help them avoid being victimized by identity thieves.

Key Features

- myVAULT sensitive information storage
- One-way data encryption

ZoneAlarm Pro's Hacker ID automatically blocks, locates, and maps the source of would-be intrusions—hackers can no longer hide.

- ID Lock fraud protection
- Host file lock
- eBay site verification

Easier to Use

ZoneAlarm Pro's intuitive interface makes it easy to stay in the know and in control. Plus, the Security Overview Panel provides an at-a-glance view of important security information.

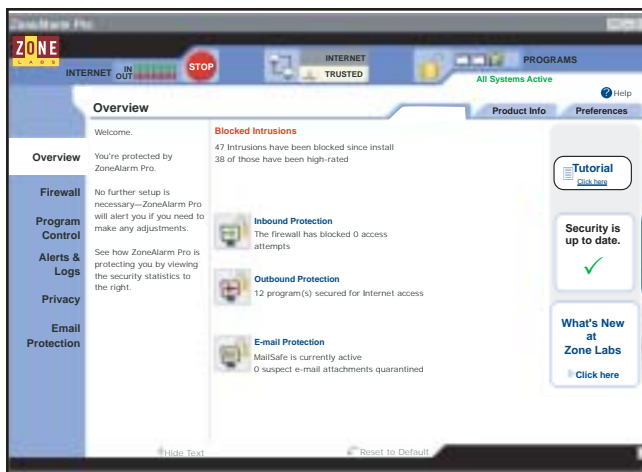

At your choice, ZoneAlarm Pro 4.5 pre-approves Internet access for common programs such as Microsoft Windows applications and components, after first verifying the authenticity of the programs. A step-by-step installation wizard allows you to shield your computer quickly and easily. Secure "out of the box" settings ensure immediate protection.

Key Features

- Real-Time Rated Alerts
- Expert Alert Advice*
- Pre-Loaded Security Settings
- Security Overview Panel
- Enhanced Context-Sensitive Help
- Automatic wired and wireless network detection

Zone Labs ZoneAlarm Pro

NEW! Version 4.5
Datasheet

ZoneAlarm Pro's intuitive interface keeps all your vital security information at your fingertips for quick, easy reference.

Privacy Protection

You are not alone online. Intrusive cookies can invisibly track your Web-surfing habits without your knowledge and report them to spammers and marketers. ZoneAlarm Pro blocks these cookies, keeping your Web-surfing information private and warning you when attempts are made to invade your privacy. Plus, you can eliminate annoying pop-up ads that take over your screen, and stop banner ads, so your surfing is fast and clutter-free.

ZoneAlarm Pro's advanced privacy features allow you to control cookies, block annoying ads and eliminate pesky pop-ups for fast, safe surfing.

Key Features

- Pop-up, Banner and Animated Ad Blocking
- Cookie Control
- Exclusive Privacy Advisor
- Cache Cleaner

NEW! ID Lock

ID Lock provides a layer of protection to help prevent you from inadvertently sending out personally-identifiable information, such as a social security number or credit card data, to an insecure site. ID Lock has two modes: **auto-block mode** silently blocks all personal data; **manual mode** works on a case-by-case basis, alerting you before your personal information is released via the Internet or email. ID Lock also lets you create a list of trusted Web sites which are permitted to receive information without you approving each transmission of data.

Protect Your Business With ZoneAlarm Pro

Hackers can use a single unprotected computer as a gateway into your LAN, accessing your company's proprietary data and wreaking havoc with your networked computers. ZoneAlarm Pro provides the extra security you need to protect your computers, your network, and your business.

Protects Entire Network

ZoneAlarm Pro blocks known and unknown threats at the desktop, providing unparalleled security for your computers and your network.

Stops Malicious Worms

MailSafe quarantines dangerous email attachments before they spread throughout your network or to customers.

Protects Employees Anywhere, Anytime

Automatic Network Detection instantly senses new networks—including wireless networks. Automatic VPN protection automatically configures VPNs. ZoneAlarm Pro protects your employees whether they are in the office, on the road, or working from home.

Controls Internet Use

Customizable Program Control and advanced Web Filtering let you control how your employees use the Internet at work.

Zone Labs ZoneAlarm Pro

NEW! Version 4.5
Datasheet

Updates Your PCs Automatically

ZoneAlarm Pro automatically checks for software updates to ensure users always have the most up-to-date protection.

Reduces IT Support

Intuitive user interface, enhanced Online Help, a new Quick Start Tutorial, and other ease-of-use enhancements translate to fewer support issues.

Offers Peace of Mind at a Low Cost

With new Internet threats appearing daily, you cannot afford to leave your network—and your business—unprotected. ZoneAlarm Pro offers affordable, easy-to-use, and highly customizable protection against known and unknown Internet threats.

The Experts Speak

"When you open that big fat pipe to the Net, you also create a potential autobahn into your PC for hackers and spyware. Luckily, ZoneAlarm Pro can stop both, and its ad blocking software smacked down just about every ad we came across."

— *PC World, 2003*

"ZoneAlarm Pro is as good as personal firewalls get."

— *CNet, 2002*

"ZoneAlarm Pro is simply one of the best firewall programs around."

— *MSNBC, 2002*
